

# ADAMA- Chemistry Department Scholarships for Outstanding Students

## **Application Announcement - October 2023**

The Chemistry Department is delighted to announce the availability of ADAMA scholarships for exceptional graduate students for the academic year 2023-2024.

#### **Scholarship Details:**

ADAMA Corporation is renowned for providing advanced solutions to combat weeds, insects, and diseases empowering farmers to fulfill their vital role in feeding the world. The primary objectives of these scholarships are to foster academic excellence and encourage research work among outstanding students. The scholarships also provide an excellent opportunity for exceptional students to showcase their research to the esteemed academic staff and ADAMA representatives.

#### **Eligibility Criteria:**

These scholarships are specifically designed for outstanding research students who have already received confirmation for their research proposals in research groups affiliated with the Chemistry Department. Additionally, the research field should be related to one of the following topics:

- 1. Synthesis and usage of organic compounds
- 2. Formulation of polymers and hybrid materials
- 3. Analytical studies of small molecules, polymers, and hybrid materials

To be qualified the applicant should meet the following requirements:

4. Maintain a GPA of 85 or above in their current degree.

#### **Scholarship Awards:**

The ADAMA scholarships will be awarded based on the rankings the scholarship committee determines and the allocated budget. The top three candidates will be granted three scholarships. Candidates are required to give a brief oral presentation about their research during a seminar.

#### **Terms and Conditions:**

- 1. Recipients of the scholarship are required to participate in activities organized by ADAMA.
- 2. Only applications related to the specified research topics will be considered.

#### **Application Guidelines:**

Interested research students who meet the eligibility criteria may apply for the ADAMA scholarship. Submit the following with your application:

1. A scientific research abstract.(1-3 pages)

- 2. A comprehensive CV, which should consist of a passport photo.
- 3. A letter of recommendation from the candidate's research group's Principal Investigator (PI).

### **Application Submission:**

Applicants must fill out the online application form using the following link: <u>Application Form</u>

**Important Dates:** The final application submission date is 3.12.23at 1:00 PM. Applications received after this deadline will not be considered.

We encourage all eligible students to apply for the ADAMA scholarship and take advantage of this prestigious opportunity to further their academic pursuits and contribute to the field of chemistry.

Best of luck to all applicants!
