

**The Department of Chemistry invites all its students and academic staff to the weekly colloquium lecture
Wednesday 30/6/21, 11:30 a.m.**

Chemography Concept in Chemical Space Exploration by

Alexandre VARNEK

Laboratory of Chemoinformatics, University of Strasbourg, France

Alexandre Varnek is a full professor in theoretical chemistry, head of the Laboratory of Chemoinformatics and the director of two MSc programs: master in chemoinformatics and master "In Silico Drug Design" at the University of Strasbourg. He also is a head of Chemoinformatics group at the Hokkaido University (Japan). He published 7 books and > 250 research articles and book chapters and delivered > 100 lectures at national and international schools and meetings. He is an Editor-in Chief of the journal "Molecular Informatics (WILEY)". He is involved in the organization of a series of international meetings targeting academia and companies. His research focuses on chemoinformatics and molecular modeling.

will be held on zoom:
